## EDUCATION

Izmir University of Economics

Associate Degree in  
Computer Programming

2022 - 2024

## SKILLS

Programming Languages

- Java
- Python
- JavaScript

Web Development

- React
- NodeJS

Databases

- SQL
- MySQL
- MongoDB

Testing Tools

- Selenium
- JUnit
- TestNG
- LoadRunner
- Manuel Test

Other Tools

- Git
- GitHub
- JIRA

## HOBBIES

- TV Series
- Making Music
- Football

## LANGUAGES

- English B1
- German B1

## ABOUT ME

My knowledge and technical skills in computer programming fuel my passion for a career in software development. I consider myself a continuously evolving, innovative, and solution-oriented individual. Through my education and various projects, I have refined my expertise in software development, programming, and data science. I aim to apply these skills to make meaningful contributions to the software industry.

## WORK EXPERIENCE

### Software Developer Intern

Mondi Corrugated Turkey - Izmir - 07.2023 / 09.2023

Collaborated with experienced developers to improve code quality and efficiency. Contributed to performance optimization initiatives for the company's internal network and developed various .NET projects. Managed user IP settings through the CISCO program and provided technical support for resolving user issues.

### Software Test Developer Intern

Innovile Telecommunications - Izmir - 01.2024 / 02.2024

During my internship, I focused on essential testing processes like creating test cases, executing smoke tests, and conducting regression tests. I learned to effectively model user scenarios in test cases, understood the importance of verifying the application's core functionalities through smoke tests, and experienced the critical role of regression tests in ensuring software updates do not adversely affect existing features.
